

PROTECTION OF VITAL PARTS

PREVENTS WHIPLASH

Deployment of a collar effectively blocking the movement of the helmet and head.

AVOIDS HYPER-EXTENSION

Complete airbag protection on the hips that stiffens the trunk and prevents damage to the spine.

PROTECTS AGAINST IMPACTS

Big airbag volume adapted to the size and optimal pressure for a maximum impact absorption.

RELIABLE EFFICIENT SIMPLE

BIG PROTECTION VOLUME

17L normal size - 28L large size to perfectly cover the vital parts

REUSABLE

the system can be reactivated in 2 minutes by yourself, you only need to change the cartridge

MECHANICAL TRIGGER SYSTEM

reliable and without operational constraints (no battery, no unexpected airbag activation)

PROTECTION FROM 0 KM/H

for all types of impacts

COLLECTION

WHAT IS THE TURTLE TECHNOLOGY?

A high-quality back protector (SAS-TEC level 2) is placed over all our airbag as a rigid outer material like a turtle shell so that the whole back is protected in case of a fall.

✓ DISTRIBUTION OF IMPACT FORCES

✓ OPTIMAL BACK PROTECTION

✓ PROTECTION AGAINST INTRUDING OBJECTS
